Corrigendum

Corrigendum to "Solution of the Skyrme HF+BCS equation on a 3D mesh II. A new version of the Ev8 code" [Comput. Phys. Comm. 187 (2) (2015) 175–194]

The expression for the second order Lagrangian derivative of $f_t(x)$ at a mesh point $s\,dx$ (Eq. 96) is affected by two misprints: a global sign and a factor $\frac{\pi^2}{3}$ given in the second line that should not be squared. The correct formula is:

$$\left.\frac{d^2 f_t(x)}{dx^2}\right|_{x=x_s} = \begin{cases} (-1)^{t-s+1}\left(\dfrac{2\pi}{N dx}\right)^2 \dfrac{\cos\left[\pi(t-s)/N\right]}{\sin^2\left[\pi(t-s)/N\right]} & \text{for } t \neq s, \\ -\dfrac{\pi^2}{3dx^2}\left(1-\dfrac{1}{N^2}\right) & \text{for } t = s. \end{cases} \tag{1}$$
